GLOBAL MARKET ACCESS SUMMIT for INNOVATORS

Reach Qualified International Distributors.
Gain Market Access. Accelerate Your Global Growth.

A Curated International Market Access Summit
for Novel Agricultural Inputs and Technologies.

ONLY 25 FEATURED INNOVATORS

Participation is by qualification and selection only.

PACIFIC
AGRISCIENCE

The Opportunity

Expanding internationally is one of the greatest challenges facing innovators and producers of novel agricultural inputs and technologies.

Finding the right distribution partners takes time. Securing meetings with decision-makers is even harder — most distributors already have established portfolios and receive countless approaches from companies such as yours seeking representation. If you do get an appointment in their office, you find that they're often too pre-occupied with their day-to-day business to focus on your presentation.

The Global Market Access Summit has been created to change that.

Over three highly focused days in Singapore, selected innovators and manufacturers present directly to qualified distributors from around the world who are actively seeking new and novel agricultural inputs and technologies to strengthen their portfolios and increase profitability.

NOT A **Trade Exhibition**	NOT AN **Investment Forum**	A CURATED **Business Summit**

Targeting participation from up to 50 distributors

Who Should Participate?

We are seeking companies with commercially validated novel agricultural inputs and technologies that are ready for international market access. Ideal participants will have:

- Products with proven market acceptance and commercial traction
- Successful and consistent field performance
- Capacity to supply international markets
- A clear strategy for appointing distribution partners

This summit is not intended for early-stage start-ups, concepts under development, or companies seeking investment. Participation is by qualification and selection to ensure every presentation offers genuine commercial value to participating distributors.

Suitable For

Business Owners · Founders · CEOs & Managing Directors · C-Suite Executives · Commercial Managers · Business Development Managers · Technical Managers · Product & Portfolio Managers

Summit at a Glance

Participation is by qualification and selection only, ensuring exclusive access to qualified partners and meaningful commercial opportunities.

25 CAREFULLY SELECTED INNOVATORS	**Up to 50** QUALIFIED DISTRIBUTORS
3 Days PRESENTATIONS PLUS ONE-ON-ONE MEETINGS	**1Goal** GLOBAL MARKET ACCESS AND PARTNERSHIPS

Why Participate?

Instead of spending months and even years arranging meetings country by country, you can:

- Present directly to qualified participating international distributors
- Meet senior decision-makers responsible for evaluating and securing new agricultural inputs and technologies
- Conduct structured one-on-one meetings
- Build relationships during networking opportunities and the Gala Dinner
- Continue one-on-one meetings and discussions independently on Day 3

Compress approximately 90–100 days of international market access efforts into a single event.

CONVENTIONAL APPROACH	THIS SUMMIT
• 25–30 international business trips • Approximately 90–100 days meeting potential distributors • Significant management time • Ineffective attempts to get doors open • Estimated investment: in excess of USD 100,000	Access to high calibre international distributors — delivered through a single event. **Total Investment: USD 4,900 plus one trip to Singapore**

Why This Summit Works

Every distributor attending has committed both time and investment because they are actively looking for innovative agricultural inputs and technologies to strengthen their business and increase profitability.

Away from the distractions of the office and their daily routines, they have dedicated time to focus on new opportunities and engage in meaningful discussions with you.

C S Liew, a co-founder of Pacific Agriscience, who is organising this summit, has 50 years of global experience in agricultural inputs and market access. C S is well qualified to evaluate novel agricultural inputs and technologies and, select participating innovators and manufacturers for this summit.

Because presenting companies have been carefully qualified and selected, distributors know they are meeting businesses with novel agricultural inputs and technologies ready for international market access — not companies seeking investment.

Presentation Packages

Standard

USD 4,900 (for 2 delegates)

USD 990 (each additional delegate)

- One 20-minute presentation (15 minutes plus 5 minutes Q&A)

Industry Segments Represented

- Chemical Crop Protection
- Biological Solutions
- Specialty Fertilizers
- Semiochemicals
- Adjuvants and surfactants
- Agricultural AI
- Precision Agriculture
- Agricultural Drones
- Smart Application Technologies
- Other Novel Agricultural Inputs

Service Partner Categories – Exclusively one partner per category by selection

- Product registration and regulatory services
- Market research services
- Business development consultancy
- Toll-manufacturing services
- Registration field trials specialists
- Contract Research Organisations (CROs)
- GLP laboratory services

Participation is strictly limited to one service partner per category and by qualification and selection, ensuring only specialist service providers with genuine value to innovators and distributors are selected

ONLY 25 FEATURED INNOVATORS

Participation is strictly limited and by qualification and selection, ensuring distributors are introduced only to novel agricultural inputs and technologies with genuine international potential.

In Their Words

Feedback from sponsors and delegates at our recent Global JV Pesticide & Toll-Manufacturing Workshop held in Singapore, July 2026

"It was truly an excellent event—very well organised and highly successful. The way you curated and balanced the agenda made the event highly relevant and engaging for everyone."

— Jitendra Mohan
Willowood, India

"The Workshop was outstanding. Was good to connect with HELM, FMC and many others to explore wonderful friendship and business opportunities."

— Shalil Shroff
Punjab Chemicals, India

"A very well organised and executed Workshop. I found the workshop incredibly educational because of the diversity of perspectives from industry veterans as well as up-and-coming leaders."

— Ahnaf Chowdhury
Shetu Corp, Bangladesh

"It was an insightful and well-organized event… look forward to events hosted by Pacific Agriscience in the future."

— Naveen Mongkoltanmakul
InterCrop, Thailand

"You have done a great job!"

— Luigi Bazollo
Leonardo Lifescience, Italy

"A great event…was very nice to interact with real decision makers."

— Dave Bengardi
Agricon, Indonesia

"A great workshop…I got a lot out of it and plenty of opportunities to follow up with for the future growth of 7 Worlds Ag."

— Ben Coombe
7 Worlds Ag, Australia

"The two days were very informative… we gained a lot during various discussions and one to one meetings."

— Ashok Dhiman
Sarawasti Group, India

" Coming from the public health pest management industry, it was truly an eye-opening experience to gain a better understanding of the agricultural sector. I also appreciated the opportunity to meet industry leaders from different countries and exchange ideas, which has certainly broadened my perspective."

— Jason Tan
Lexikon, Singapore

"It was a platform to drive strategic discussions and relationships for supply competitiveness, innovation and market access – aided by insightful discussions on localized innovation, biologicals and related. One of a kind, a first in the crop protection industry that I am aware of."

— Kumardev Datta
FMC, USA

"An excellent program that provided valuable first-hand insights into the global market during these challenging geopolitical times. The intimate setting encouraged meaningful networking, insightful discussions, and new opportunities for collaboration"

— Ankit Jain
Hindustan Rasayan, India

"An excellent forum to get to know the industry trends, to discuss, to share, and of course to meet old friends, and to create new connections across our industry. The setting and atmosphere were very conducive, everything was flawlessly organized and I thoroughly enjoyed participating, so I hope you will organize a similar event the coming year again."

— Paul Brandeis
FMC Agro Singapore Ptd Ltd, Singapore

"An amazing event. Hope for more with SML's additional participation. Based on subject matters, we could try to bring, and areas of discussions we could work on, for the next shows"

— Bimal Shah
SML, India

"Great opportunity to listen to very relevant players and understand the future of the market. Congrats on the perfect event"

— Karim Pechliye
